

# Connecting Millions...

## Where They Live, Work and Travel!

**Crest Digitel is one of the leading and fastest-growing Digital Connectivity Infrastructure** companies headquartered in India dedicated to providing innovative solutions. Backed by global parentage we are committed to revolutionizing people's lives by seamlessly connecting them at any time and from any location. This commitment is evidenced by the company's **50% market share** in the IBS business, **10M+ daily touchpoints**, and nationwide presence covering all **22 telecom circles**.

Guided by our **Mission to Be a leading digital connectivity infrastructure partner**, we continue to be the forerunner when it comes to adopting best practices during deployment to deliver with speed and safety. With an **excellent uptime of 99.99%** coupled with a deep understanding of the consumer needs and demands of the evolving times, the team at Crest has been successful in enhancing the coverage and capacity of mobile networks across residential, commercial, and industrial segments. **Some of our marquee deployments are installed in metro stations, tunnels, tunneling infrastructure, offices, malls, hospitals, airports, colleges, and countless other locations with Airtel, Jio, VI, and BSNL as our key customers.**
